

FOOD QUALITY AND SAFETY POLICY

At BOAVIT NUTRITION S.L., we specialise in the global import and distribution of nutritional raw materials for the nutraceutical, sports, cosmetics, pharmaceutical and food industries. Some of these ingredients include fine chemicals, dietary supplements, minerals and plant extracts.

We uphold and promote the following core principles, which underpin all our activities relating to product quality and food safety:

- Identify and engage with all stakeholders, building and maintaining relationships based on mutual trust and respect.
- Focus our activities on understanding and meeting the needs and expectations of our customers.
- Comply with the legislation in force applicable to our business.
- Establish and maintain an appropriate food safety culture with management's commitment.
- Ensure a culture geared towards compliance with established product requirements regarding quality, product safety, legality, processes and specifications.
- Encourage the involvement of all staff through teamwork, internal communication, professional development training and recognition of achievements.
- Ensure a commitment to fraud prevention and food safety.
- Promote a culture of continuous improvement in our processes, products and services, and excellence in management, with the aim of enhancing competitiveness, creating value and improving the effectiveness of the food safety and quality system.
- Promote ethical commitment in all our actions, carried out by all our staff, and guarantee economic, environmental and social sustainability.
- Develop the activity in a way that is respectful of the environment and with the protection of the surroundings.
- To establish and promote the use of the quality and food safety management system based on the IFS BROKER Standard as a basic principle of the organization, to provide the framework for defining and reviewing the quality and food safety objectives of our products.

Therefore, through the effort of each of us in fulfilling our duties, teamwork, personal contributions and initiatives, ethical behaviour, and by working SAFELY and RESPONSIBLY, we will achieve greater QUALITY, PRESTIGE, and COMPETITIVENESS for our company.
